

Business Continuity Management (BCM) Capabilities

Business Risk and Resilience

Amstelveen

Who we are

We have a highly experienced team that help clients to uplift their organisational resilience.

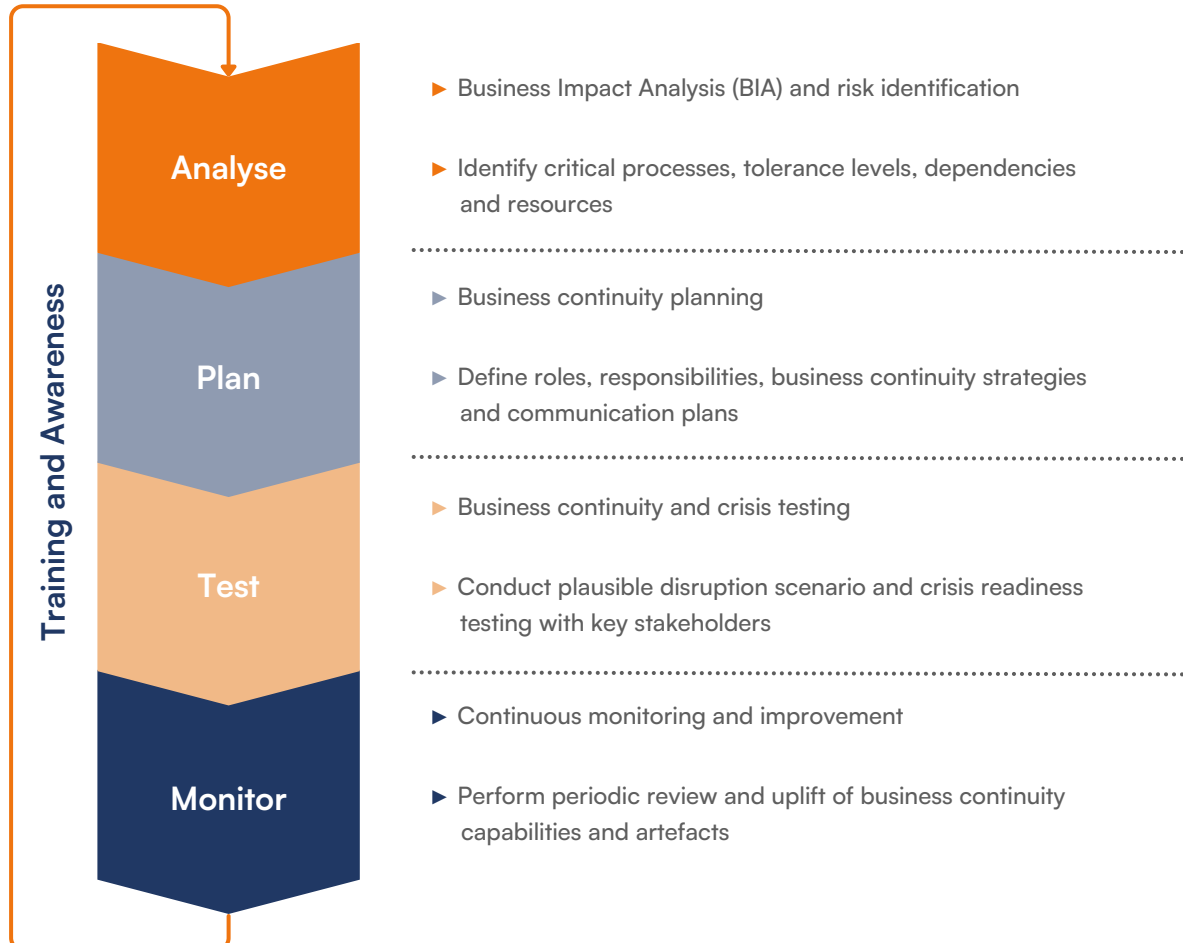

Amstelveen is a leading risk consulting firm, based in Australia, known for its expertise in risk management, internal audit, compliance and governance. We partner with organisations across various sectors to enhance their resilience and navigate complex regulatory landscapes.

Our Business Continuity Management (BCM) services cover the entire BCM lifecycle, including facilitation of Business Impact Analysis (BIA) workshops, developing Business Continuity Plans (BCPs), conducting business continuity and crisis management exercises, and preparing organisations for business continuity certification readiness.

We also conduct BCM reviews, business continuity capability uplift programs (such as APRA CPS 230 Operational Risk Management), and provide resources to augment and strengthen our clients' BCM capabilities.

“We combine our expertise with practical solutions to ensure seamless business continuity.”

We support clients across the BCM Lifecycle

Our service offering

We support organisations by building resilient strategies to help navigate through any crisis.

At Amstelveen, we equip our clients with the strategies and tools needed to be confident in responding to the unexpected. Through these activities we support organisations to be more resilient.

Our team comprises of experienced risk professionals and project experts, including ISO 22301 Lead Implementer certified specialists. We ensure the highest standards in Business Continuity Management (BCM) uplift and implementation, delivering practical and effective solutions to safeguard your business.

Uplift of Business Continuity Planning

We facilitate Business Impact Analysis (BIA) workshops and develop tailored Business Continuity Plans (BCPs) to ensure your organisation is prepared for disruptions. Our approach enhances preparedness and fosters a culture of resilience.

Conducting Business Continuity and Crisis Management Exercises

We design and conduct realistic exercises to test and uplift organisation's response capabilities. Through simulations and feedback, we identify areas for improvement and provide actionable recommendations.

Managing BCM Uplift Programs

We manage end-to-end BCM uplift programs, from assessment to implementation, ensuring BCM capabilities and tooling align with best practices, preparing clients to effectively respond to unexpected business continuity events.

Conducting BCM Reviews

We work with Internal Audit, Risk, and Business Teams to assess key risks and controls within our clients' BCM framework, identifying areas for improvement and developing control uplift plans to enhance organisational resilience.

Preparing for Business Continuity Certification or Audit Readiness

We assist in preparing clients to achieve certifications like ISO 22301 and SOC 2 by conducting gap analyses and implementing action plans to address deficiencies, enabling our clients to be audit-ready and compliant.

Resource Augmentation to Support BCM Capabilities

We provide experienced professionals to augment your BCM team, offering expertise and support for both short-term projects and long-term needs, ensuring our clients have the right resources to achieve resilience goals.
